Fran Romero
 Head of Open Innovation Programs
 AMADEUS

Passionate of Technology and Innovation, with more than 15 years of experience in the travel industry and a background in Telecommunication Engineering and an international MBA. In his current role as Global Head of Open Innovation Programs at Amadeus IT Group, Fran leads the team that drives the strategy around new technological.

Maria Garcia
 Innovation Strategist and Program Manager
 AMADEUS

Curious by nature and Innovation Strategist by profession, she is responsible for leading the strategy of the innovation program *Amadeus for Developers*, which facilitates the access to Amadeus travel data and functionalities to any developer or entrepreneur around the world. The objective is to empower innovators to quickly build, test, and launch to the market new and enhanced solution, leveraging the power of the technology used by the leading brands in the travel industry. With an International MBA, Maria has a background in Strategy Consulting, Product Management and Marketing.

Raquel Rodrigo
 Innovation Partnerships
 AMADEUS

Passionate about the startup ecosystem and how new technologies are transforming the world, with an educational background in Marketing and Communications. She has more than 7 years of experience and has worked in different industries. She joined Amadeus to bring her experience from the startup world to Amadeus Explore, an innovation program that helps startups navigate the travel industry and scale through pilot opportunities to validate business ideas and applications.

Cristina Moyano
 Investment Manager
 AMADEUS

With over 10 years' experience growing organizations by providing business transformation services, marketing strategy, and business development solutions, she has been closely working with the entrepreneurship ecosystem by being part of both at an accelerator and at an IoT startup. In her current role as Investment Manager in Amadeus Ventures, her objective is to transform traveler experience through innovation. She is committed to finding startups within travel tech that can be the best strategic fit for Amadeus and to help them scale by establishing a common win-win framework.

Itai Green
 Founder and CEO of Innovate Israel
 ITTS

He is the founder and CEO of Innovate Israel. He is one of the dominant leaders of Israel's corporate open innovation. Itai is recognised as a leading player in Israel's startup ecosystem and is at the forefront of launching its growth at a rapid pace. Itai leads innovation processes by connecting global corporations with the Israeli startup community to create advanced technological solutions; focusing on IT, consumer products, pharma, finance, travel, e-commerce, retail, banking, insurance, energy, constructiontech and IoT.

Daniel Safarti
 CEO Applango
 APPLANGO

Applango uses Artificial Intelligence to find customer-specific best practices to boost agent productivity and customer experience within contact centers. Applango's SaaS solution has shown to be able to predict customer experience and understands how customers are treated. It can predict which customers will be upset in the future, even if they have not voiced a complaint. This results in enhanced streamlined services that help improve customer experience and service, which can lower costs 25%-50% at the first iteration.

Jonathan Abraham
 CEO Gamitee
 GAMITEE

Gamitee is a Jerusalem based startup that supports travel sites by helping their users on the booking process. Most, if not all, purchase decisions are actually group decisions, however, online booking websites don't offer the group the basic tools they need. Gamitee noticed this, so their team set themselves on a mission to re-imagine the way online travel booking works and offer their solution to the websites to solve this.

Lioz Amar
 CEO Travaxy
 TRAVAXY

Travaxy is the world's first online booking platform that enables people with disabilities to plan and book accessible Holidays in a simple, fast, fun and efficient way. They offer flights, hotels, cars rental, transport bookings and even medical equipment rental, and they ensure travelers with disabilities that they'll have a smooth, adapted and comfortable travel experience.

Amir Balaish
 CEO Whizar
 WHIZAR

Whizar is an Israeli start-up, founded by three experienced technological entrepreneurs. It allows travel agencies to generate new revenues and increase the conversion rate on flight tickets simply by performing the automation of the ticketing time process. They can do that by constantly predicting billions of airfares, and delaying the ticketing of bookings which are likely to drop. On average, they cut 12% of the flight tickets cost, for about a third of the airfares, which means doubling the agency's profit on its existing flight bookings volume.

Amadeus

Amadeus is the leading provider of technology solutions for the global travel industry. Amadeus solutions help key players in the travel industry (including travel agencies, airlines, airports, hospitality businesses, tour operators, railway and car rental companies, and others) succeed in their business, delivering better experiences to their customers and every step of the traveler's journey, from inspiration through to shopping, booking and then pre, on and post-trip. Amadeus is present in 190+ countries, and combines more than 30 years of experience in the industry with a strong focus on innovation and R&D.
