

AMT & OAMT

Account Management Training &
Oncology Account Management Training

November 15–17, 2022
Hyatt Regency Phoenix

**We are back
live and in-person!**

Welcome

Patient cost sharing. Value-based contracting. Medicare Part D. Formulary influencers.

Life sciences account managers must navigate these topics—and many more—to succeed in their jobs. As Market Access evolves, keeping up with the latest trends can be a challenge. That's why Clarivate's conference, Account Management Training (AMT), is an industry leading standard for account managers.

AMT is a comprehensive training course designed to provide the fundamentals for any account manager who wants to understand the managed markets from the perspective of what their customers are trying to achieve. Attendees will be able to dive into the complexities of their jobs with sessions on managed care contracting, benefit designs, Medicaid, Medicare and much more. They will learn from seasoned faculty and interactive sessions designed to answer questions and help them succeed in their interactions with pharmacy and medical directors.

Cancer affects us all. With this in mind, we designed the Oncology Account Management Training Program. In this evolving treatment landscape, the business of cancer care has become increasingly complicated for industry and patients alike. New classes of treatments bring hope, but also logistical challenges—ones that are made even more complex by a post-reform environment in which old models of care are being replaced. To help demystify it all, we bring together key players to share their perspectives on today's oncology landscape. They will discuss how we can work together to navigate this world—and, as a result, help ease the process for patients and their families.

AMT & OAMT are separate tracks in the same event venue!

**Attendance for each track is limited to ensure maximum participation.
Please register early.**

AMT Program Faculty

Joel V. Brill, MD FACP A

Chief Medical Officer
Predictive Health

Patrick W. Finnerty

Owner, PWF Consulting
Former Director, Department of Medical
Assistance Services
State of Virginia

Mark Garnett

President
