

For over 180 years, Dods has provided essential information and connections to the political and public sector arenas. Now one of the UK and EU's leading business intelligence, media and event companies, we are a trusted source of political knowledge and debate through our portfolio of services and iconic media titles.

Dods delivers business-critical market intelligence and analysis for stakeholder management. Our team of expert monitoring consultants produce leading research, insights and news to help clients understand the ever-changing political and public sector landscape. We produce bespoke, up-to-the-minute alerts tailored to client's requirements, ensuring they can understand and react to key policy changes as they occur.

polit-X

The partnership between Dods and Polit-X offers clients a comprehensive EU monitoring service. Building on the products already provided by Polit-X, we can now offer a more bespoke service, where a Brussels-based Dods policy specialist acts as part of your team, cutting through the noise of thousands of sources and alerting you to important key developments in real time. By acting as a filter for relevant news and information, they save you time, allowing you to focus on developing and delivering your own effective strategies.
