Seasearcher Risk & Compliance

Get the complete view of the world fleet

Knowledge is power
You need to know what’s going on in the maritime World. It’s essential to mitigate risk, stay compliant and grasp commercial opportunities. But cutting through the clutter to uncover trustworthy data and actionable insight can seem like a daunting task.

Seasearcher
The world’s most comprehensive suite of tools for tracking and understanding seaborne trade.

Built using the best data from Lloyd’s List Intelligence, Seasearcher is an online suite of vessel intelligence tools, essential to everyone with a stake in the maritime industry. Save time, simplify your workflows, and base your decisions on a clear view with everything you need, from one trusted source.
Get a clear view of risk
Move quickly with actionable insight to assess risk and stay compliant
Complete compliance checks, quickly and simply
Automated compliance risk assessment tools simplify your workflow and quickly flag potential issues
Detect sanctions risk
Be aware of high risk players, with risk ratings and sanctions alerts
Confirm illicit activity, fast
Get a clear and unbiased view of vessels and assess your exposure to risk, with contextual analytics that can flag suspicious behaviour, even with AIS turned off
Don’t waste time
Avoid unnecessary investigations with intelligence that highlights when an anomaly or AIS gap might result in a compliance risk
Stay informed of casualties and incidents
Understand where and when they happen alongside arrests and detentions
Know your customer
Understand complex company ownership structures with in-depth company data
Monitor maritime trade and seize opportunities
Increase efficiency and act on clear insight with a comprehensive understanding of shipping patterns and real-time operations
Identify supply and demand shifts
Global trade data helps you spot patterns and anticipate changes
Know which vessels are where
Vessel movements data gives you a view of the global fleet and where they are going
Track containers
Simplify transhipment tracking with end-to-end downloadable data trails on containers
Act quickly and stay ahead
Automated alerts and predicted data inform you of relevant changes and keep you ahead of your competitors
Set your strategic direction based on solid insight

Get context for your plans and decide where to focus your efforts with a clear view of the market and detailed customer knowledge.

Build cases on trustworthy data

Evidence vessel ownership and movements on reliable data from a single, trusted source.

Understand the shape and make-up of the global fleet

World fleet data helps you pinpoint opportunities.

Anticipate the effects of geopolitical events

Monitor how the industry is changing in unpredictable times.

Find out what your competitors are doing

Company fleet and activity data keeps you on the front foot.

Optimise shipping routes and avoid wasting unnecessary fuel

Reliable and accurate predicted voyage data helps you to plan ahead with confidence.

Download case ready documentation

PDF reports support your investigations.

Present your cases with confidence

Verified vessel positions ensure you are working with accurate data.

Simplify complex ownership structures

Company data allows you to find what you need quickly.
Seasearcher for you

To help you harness its full power, Seasearcher is available with sector specific subscriptions. Each one has a specially selected group of features designed to solve your department’s problems and make your workflows simpler, quicker and more rigorous.

Built on the best data from Lloyd’s List Intelligence, Seasearcher is the vessel intelligence tool trusted by maritime professionals all over the world. Stay informed with live vessel movements data, ports and places data, tailored alerts, company ownership details and downloadable reports.

Seasearcher core tools

Seasearcher core tools form the foundation on which all of our tailored subscriptions are built. Seasearcher core tools include:

- **Vessel positions** - Verified data on a ship’s location and port call history
- **Vessel characteristics** - Reliable information on a vessel’s attributes
- **Ports & places** - First-hand intelligence and verified port callings
- **Vessel lists and alerts** - Monitor and stay informed of characteristic changes and movements in real time
- **Companies & ownership** - Understand complex ownership structures with up to 7 levels of ownership
- **Downloadable reports** - Download and use for your internal due diligence processes
- **Ask the Analyst** - Get researched answers to your questions from our experts

Seasearcher Risk & Compliance

Our set of compliance risk detection features enable you to quickly spot potential risk needing further investigation. Complete due diligence and protect your organisation from the consequences of illicit activity with intelligent tools that go beyond the raw data and help you understand when a pattern or series of events should raise your suspicions.

“We have found online access to Seasearcher an extremely valuable tool to ensure adherence to our sanctions and compliance responsibilities. Information is detailed, accurate, up-to-date and in an easy to use format. From our experience, it is much superior to other programmes available.”

**Trade Finance Analyst**
London bank, operating in the African market

Seasearcher Risk & Compliance includes

- **Seasearcher core tools** - Access essential maritime intelligence data (see page 7)
- **Incidents and casualty reporting** - Stay informed of casualties, seizures, arrests, inspections and detentions
- **High risk port call indicators** - Stay informed of vessel callings in high risk, Joint War Committee war risk areas or ECA zones
- **Instant compliance risk indicators** - Get an instant “big picture” indication of risk associated to a vessel
- **Vessel timelines** - Review interactive onscreen timelines with all key events and characteristic changes linked to a vessel
- **AIS gap notifications and alerts** - Detect AIS gaps and if they occur in high-risk locations
- **Projected destination tracking** - Get a clear indication of where a vessel may have travelled during ‘dark’ periods
- **Ship to ship operations** - Identify vessels that frequently pair with your vessel of interest
- **Sanctions screening and alerts** - A clear view of current and historic sanctions
- **Spoofing detection** - Stay alerted to vessels that transmit false AIS data to conceal their real location
- **Loitering** - Detect suspicious loitering behaviour in associated with high risk area movement and draught changes
Seasearcher is powered by Lloyd’s List Intelligence

We have a robust framework to measure and continuously improve the quality of our data sets.

Consistency
Our methodologies use strict rules and defined tolerances to manage consistency.

Origin
Our data is built on the most reliable inputs from our own exclusive sources and partners that we trust.

Accuracy
We are constantly monitoring and testing our data sets, removing anomalies, driving accuracy and increasing precision.

Completeness
We give you the most complete view and are continually growing our coverage.

Timeliness
Automated processes and data handling ensure our data is current and quickly accessible.
