📅 Tuesday, June 14th   🕐 17:00 (CEST)   📍 SAP Data Space, Rosenthaler Str. 38, 10178 Berlin, Germany

Our Speakers

Amadeus

Amadeus is the leading provider of technology solutions for the global travel industry. Amadeus solutions help key players in the travel industry (including travel agencies, airlines, airports, hospitality businesses, tour operators, railway and car rental companies, and others) succeed in their business, delivering better experiences to their customers at every step of the traveler lifecycle, from inspiration through to shopping, booking and then pre, on and post-trip. Amadeus is present in 190+ countries, and combines more than 30 years of experience in the industry with a strong focus on innovation and R&D.

Flavien Gosset
Amadeus for Developers – developers.amadeus.com

Flavien has 15 years of experience implementing lean and customer experience management approaches, putting at the heart of business activities the final customer. He is now acting as strategy, marketing and partnerships manager of the Amadeus for developers self-service portal. His objective is to empower innovators to build the future of travel.
