

Amadeus Auto-Queue 1 Cleaner Lite

Queue 1 is by far the busiest and highest volume queue receiving PNRs with both confirmations and cancellations on an ongoing basis. Tasking agents to clear this queue reduces efficiencies and sacrifices consistency as well.

Tangible benefits

Free up time

- Let your travel agents get rid of repetitive and low-skilled operational tasks.

Gain more efficiencies

- Clean up and dispatch PNRs out of Queue 1 in a consistent and efficient way.

Protect your revenue

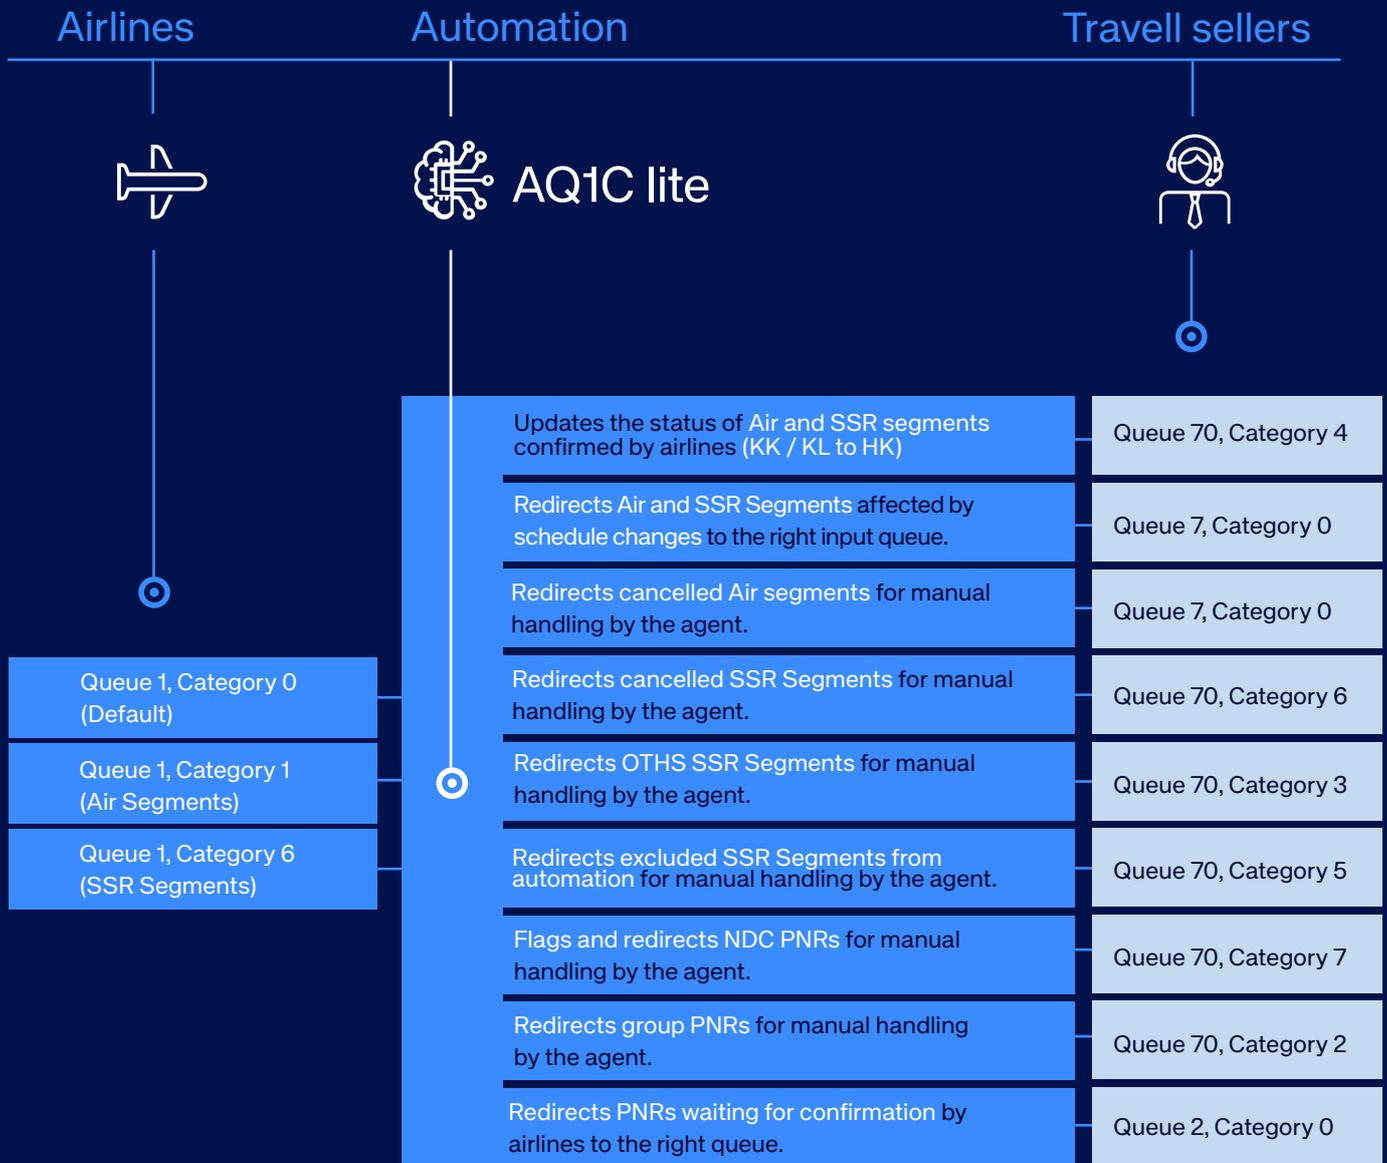

- Avoid risk of Agency Debit Memos (ADMs) from airlines due to unattended PNRs.

Build your collection

Even more powerful when you combine our **Auto-Queue1 Cleaner Lite** robot with other Amadeus Robotics applications such as:

Amadeus Auto-Schedule Change Lite – automatically handles PNRs affected by minor schedule changes and prioritizes major ones for manual handling by the agent.
